POSTINGS DASHBOARD

What's Going on with My Labor Law Compliance Program?

Amidst your myriad HR and compliance responsibilities, you manage your company's labor law compliance program. It's no easy feat to ensure each of your locations is compliant with the most up-to-date federal, state, county and city posters.

You only have so much time to devote to it, but do you ever find yourself thinking:

- ▶ Is my location list up to date?
- ▶ Do my locations have all the right postings on display?
- ▶ Did all our Los Angeles locations receive the latest minimum wage poster?
- ▶ What federal posting updates (if any) occurred last month?

As labor law compliance program management becomes more complex, we understand you need more visibility and control of your GovDocs Update Program. We've solved that problem with one, easily accessible solution: the **GovDocs Postings Dashboard**.

The GovDocs Postings Dashboard is a full-service online resource to manage and monitor your labor law compliance program.

Need a broad view? The homepage highlights the most current labor law posting updates, a heat map representing your current locations, high-level program description and successful delivery percentage.

Or, need to go deep? Get into the nitty-gritty of your location list, check the status of the most recent labor law poster shipments and even review the required posters each needs to display.

And, it gets better: The GovDocs Postings Dashboard is part of your Update Program.

What Can You Accomplish on the GovDocs Postings Dashboard?

Reference Monthly Updates

Need a refresher on a previous month's labor law posting updates? Select the desired month to review a summary of changes to federal, state/province, county and city postings.

- ✓ **Determine Required Posters to Display.** Planograms, accessible on the Postings Dashboard homepage and organized by state/province, show what posters are required and applicable for each of your locations.
- ✓ **View Poster Files.** Once you know what posters a location needs, take a look at the respective PDFs. From the Posters tab, double-click a state or province to select from the list of available files.
