

GOVDOCS

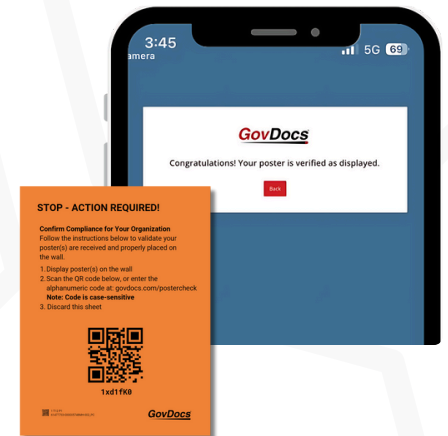

Poster QR Code Technology

GovDocs uses QR codes in a variety of ways to easily help you and your location managers ensure up-to-date and compliant labor law posters on display. All you need is a mobile device, and we take care of the rest!

PosterCheck™

PosterCheck™ is a QR code-based resource to help you – and your locations – confirm updated and new labor law posters are delivered and properly displayed in a timely manner.

With PosterCheck, new and updated posters are shipped to applicable locations with an 8.5x11 inch orange insert, including a QR code and alphanumeric code. Once the poster is hung on the wall and code is scanned/entered at the location, the verified display status is available in your centralized GovDocs Posting Dashboard.

ComplianceCheck™

ComplianceCheck™ determines whether a location has the most current labor law posters – a fast, simple way to audit.

Scan the QR code, located in the bottom margin of the GovDocs poster, and one of three messages will appear on the mobile device:

- **Green:** Compliant
- **Yellow:** Updated with a new version is pending release
- **Red:** Not compliant
